

Cine Multisala Kiosk

The software and hardware solution dedicated to cinema operators and to the show business

For film and show promotion and for tickets reservation and purchasing

Cine Multisala Kiosk integrates in one single solutions the internet presence, the multisala kiosks and the mobile communication, furthermore it guarantees the consistency of the cross channel communication directed to the customer base.

Cine Multisala Kiosk enables both tickets reservation and purchasing over three devices: home PC, multisala kiosks and mobile phones; reaching a larger base of consumers. Furthermore, it also enables to sell long tail films, legally protected, and to download them on a USB key.
