## PRESS RELEASE

### **TXT e-solutions and Maersk H2S Safety Services Italia Sign MoU to deliver cutting-edge Artificial Intelligence based Health Safety & Environment solutions for Oil & Gas Sector**

- Memorandum of Understanding (MoU) signed between TXT e-Solutions and Maersk H2S Safety Services for a comprehensive program to target the oil & gas market;
- These solutions will leverage TXT System Integration, software engineering and technology capabilities, its ability to commit to customer success, and the unmatched capabilities of Maersk H2S to design and implement HSE global services.

MILAN, January 19, 2022 – TXT e-solutions (BIT: TXT.MI) and Maersk H2S Safety Services Italia announce they have signed a Memorandum of Understanding (MoU) to roll out a comprehensive program to address the Oil & Gas market with innovative HSE safety solutions and services. These solutions will leverage TXT System Integration, software engineering and technology capabilities, its ability to commit to customer success, and the unmatched capabilities of Maersk H2S to design and implement HSE global services.

*"Our ambition is to combine our best system integration and software engineering capabilities with Maersk H2S' unique expertise in the HSE domain for the Oil & Gas sector, thus delivering innovative, future-proof, and tailor-made safety services".* Commented Gianluca Crecco, Managing Director of TXT's Industrial & Automotive Division.

*"We will be able to strengthen our HSE solutions and expand our client's portfolio having an experienced partner as TXT in the Software Engineering and Information Technology sector",* commented Rocco Carone, General Manager of Maersk H2S Safety Services Italia. *"Together, we will set a new benchmark for Artificial Intelligence based advanced solutions of high critical environments management such as confined spaces and safety issues in the Oil & Gas & Extraction sector".*

#### About TXT e-solutions
